Notes:

- 1) State totals do not include funds that support the North Carolina Department of Public Instruction (DPI). The FY 2011-12 budgeted amount for DPI activities was \$37,429,498.
- 2) County expenditures include all expenditures not made with State or Federal funding.
- 3) These amounts are for current operations and do not include yearly expenditures for school capital, as they vary greatly from year to year. From 2006-2010, the average statewide per-pupil capital expenditure was \$856 per student. Local funding is the source for more than 90% of the expenditure.
- 4) CPI-U (July-to-June average) as reported by US Department of Labor, Bureau of Labor Statistics ftp://ftp.bls.gov/pub/special.requests/cpi/cpiai.txt

Notes:

- 1) Community College expenditure data are the final net State General Fund appropriations. The FTE count includes budget FTE and non-budget FTE supported by appropriations. It does not include self-supported FTE. Sources: Year-end BD-701 reports, Budget Code 16800; NC Community College System Annual Statistical Reports, Table 26: Annualized Average Annual Full-Time Equivalent (FTE).
- 2) CPI-U (July-to-June average) as reported by US Department of Labor, Bureau of Labor Statistics ftp://ftp.bls.gov/pub/special.requests/cpi/cpiai.txt
- 3) UNC expenditure data are the final net State General Fund appropriations, but exclude several expenditure groups that are administratively housed under UNC. These groups, with their expenditures for FY 2011-12, are as follows: AHEC: \$41,798,401; UNC Hospitals: \$18,000,000; UNC-GA Related Educational Programs: \$66,156,722; the North Carolina School of Science and Math: \$17,680,508; UNC-TV: \$11,735,550; Financial Aid to Private College Students: \$90,526,812. FTE data reflects fall enrollment of resident students only, not all FTE; consequently, the per-student expenditures shown here do not correspond with those published by the UNC System, which are based on all enrolled FTE.
